\*In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

Explanation of symbols used :—B.—Births; B.R.—Birth Rate; C.—Cholera; S.—Smallpox; P.—Plague; F.—Fevers; D.D.—Dysentery and Diarrhoea; R.D.—Respiratory Diseases; M.D.—Maternal Deaths; D.R.—Death Rate; I.D.—Infantile Deaths (included in total deaths); ..—Nil Information.

## REMARKS

The figures of births and deaths shown in this statement for week ending the 1st September, 1956 relates to 241 towns with an estimated population of 35,587 thousands. The total number of towns is 318 and their population is 41,584 thousands. Thus 76% of the total number of towns representing 86% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 24,616 and 9,034 representing birth and death rates of 36.0 and 13.2 per thousand of population respectively.

(a) *States (Part A and C):*—The data here relate to 206 towns with an estimated population of 29,762 thousands. Information about Bihar could not be included. The total number of towns is 253 and their population is 33,500 thousands. Thus 81% of the total number of towns representing 89% of the total population is covered.

The number of births and deaths recorded in these towns were 21,897 and 8,114 representing birth rates and death rates of 38.3 and 14.2 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(b) *States (Part B):*—The data here relate to 35 towns with an estimated population of 5,825 thousands. The total number of towns is 65 and their population is 8,084 thousands. Thus 54% of the total number of towns representing 72% of the total population is covered. The number of births and deaths recorded in these towns were 2,719 and 920 representing birth and death rates of 24.3 and 8.2 per thousand of population respectively. No town recorded a high death rate of 50 or over per thousand of population.
